Nessen fixtures are manufactured to standards, which equal or exceed the highest in the industry. All mechanical components of every standard fixture in the Nessen catalog, barring misuse or abuse, are guaranteed to provide the original owner with a lifetime of service free from defects in workmanship and materials.

This warranty does not extend to Nessen products that have been altered, repaired, replaced with unauthorized parts, or have been subjected to neglect, abuse, misuse or accident (including but not limited to shipping damages). Any abuse or misuse contrary to normal operation voids this contract. Nessen is not liable for any costs associated with the removal of parts or products, labor, or any associated costs. Nessen's warranty does not apply to components or accessories manufactured by another manufacturer. Ratings for electrical components (such as bulbs, sockets, and switches) are set by our highest-quality suppliers.

This warranty does not apply to damages associated with products that are installed in areas with other than normal temperatures, moisture levels, and any environmental conditions per the product's intended use. Nessen is not liable for any damages to people, property, apparatus, or otherwise which resulted from improper installation, maintenance, or use. This warranty is not extended to cover damages caused by abuse, fire, or acts of God.

Please call our Customer Service Department at 914-698-7799 with any questions.
